

NASSER ALSARABI

Business Information Technology Graduate | Software Development · Business Analysis · Data Analysis

Amman, Jordan | +962 79 078 4567 | alsarabinasser47@gmail.com

linkedin.com/in/nasser-alsarabi | github.com/Sarabi-N | Jordanian & Romanian Citizen

PROFESSIONAL SUMMARY

Business Information Technology graduate with hands-on experience building full-stack web applications (React, PostgreSQL), automating business processes, and turning operational data into dashboards. During an internship at NESR, an oilfield services company in Dubai, automated the manual Goods Receipt Note process with a custom web app and built 7+ n8n automation workflows. Skilled in Python, SQL, Power BI and requirements gathering, with a strong foundation in software engineering, databases and cloud. Seeking entry-level roles in software development, business analysis, data analysis or business technology.

TECHNICAL SKILLS

Programming: Python, JavaScript, Java, C/C++, Dart, HTML, CSS

Web Development: React.js, Tailwind CSS, REST APIs, API Integration, Git, GitHub

Databases: SQL, PostgreSQL, MySQL, Firebase

Data Analysis & BI: Power BI, Python (Pandas, Matplotlib), Data Visualization, Dashboard Reporting, Excel

Business Analysis: Requirements Gathering, Business Process Modeling, As-Is / To-Be Process Mapping, Data Flow Modeling

Automation & Low-Code: n8n, Microsoft Power Apps, Power Automate, Zoho Creator (Deluge)

Enterprise Systems & Cloud: SAP (Procurement, Inventory, GRN), Microsoft 365, Azure Active Directory, Microsoft Intune, AWS

PROFESSIONAL EXPERIENCE

National Energy Services Reunited Corp. (NESR)

Dubai, UAE

IT & Supply Chain Digitalization Intern

02/2026 – 08/2026

- Built an internal web application with React and PostgreSQL that automated the previously manual Goods Receipt Note (GRN) process, increasing processing speed and reducing data-entry errors
- Developed 7+ automation workflows in n8n integrating the company's daily-use applications through APIs, replacing repetitive manual tasks across operations
- Designed interactive Power BI dashboards for executive-level reporting on operational data
- Gathered requirements from supply chain and procurement teams and documented as-is and to-be process flows and data flows to identify automation opportunities
- Built internal low-code applications and approval workflows with Power Apps, Power Automate and Zoho Creator to digitize document handling
- Created and processed GRNs in SAP for procurement and inventory, ensuring accuracy and compliance with company procedures
- Supported IT administration across Microsoft 365 (users, licenses, Exchange Online), Microsoft Intune device policies, Mimecast email security and N-able RMM

PROJECTS

RedStone – AI-Powered Workflow Automation Platform (Graduation Project)

09/2025 – 01/2026

AI-driven SaaS/iPaaS platform that lets individuals and small-to-medium teams connect applications, build intelligent workflows, and receive real-time AI optimization suggestions from one interface.

- **Flow Builder:** node-based visual canvas for building workflows without technical knowledge
- **AI Assistant:** natural-language assistant that helps users build, debug and optimize workflows
- **AI Evaluation:** module that detects errors, inefficiencies and performance issues and recommends improvements

EDUCATION

Bachelor of Business Information Technology

10/2022 – 01/2026

Princess Sumaya University for Technology (PSUT) – King Talal School of Business Technology

Amman, Jordan

GPA: 3.2 / 4.0 (Very Good)

CERTIFICATIONS, AWARDS & LANGUAGES

Certifications: AWS Academy Cloud Foundations (AWS) · Data Analysis with Python (IBM) · Cybersecurity Tools and Technologies (Microsoft) · Introduction to Web Development (PSUT)

Courses: Introduction to Software, Programming and Databases (IBM) · Introduction to Data Science (Cisco Networking Academy)

Award: 2nd Place – BIT Hackathon, Princess Sumaya University for Technology (05/2025)

Languages: Arabic (Native) · Romanian (Native) · English (Full Professional Proficiency)
